President's Message

It is with great pride that as President of the Rhode Island Federation of Garden Clubs, I welcome you to "Dance Through Design," an NGC Design Specialty Flower Show. Each year we commit to presenting this state flower show allowing both designers and guests to immerse themselves in the art of floral design.

As a National Award-Winning Flower Show our goal is to showcase Creative, Traditional, and Petite Designs, along with youth entries and educational exhibits that transform the exhibition hall into a vibrant celebration of design, inspiration, and beauty.

We encourage you to explore each designer's unique process and viewpoint through floristry as a genuine art form. The schedule will lead you through this fascinating creative journey. As members of this organization, we are eager to share our knowledge and engage in any questions or thought-provoking discussions about the art of floral design and our garden clubs.

Thank you to all whose labors, talents, creativity, and expertise bring this show into bloom.

Best,
Judy Gray
President of RIFGC, Inc.

Glossary

Cascade Design – A design with an emphasis on a downward rhythmic movement. 1. The downward lines may be curved, straight, zigzag, interrupted or may be a combination. 2. The design is supported by a container or other device. 3. A minimum of components may extend upward.

Complementary Colors – colors opposite each other on the color wheel.

Creative Line Design – a Creative Design where line is dominant with a minimum of plant material and other optional components. 1. The line may be straight, curved or a combination. 2. There may be one (1) or more points of emergence and focal areas.

Creative Line-Mass Design– a Creative Design similar to Creative Line Design except additional plant material and/or other optional components are included to add strength and depth to the design.

Exhibition Table- A mode of table classes in an NGC Flower Show. An artistic arrangement of decorative unit or plant material and dining components staged with no consideration for functionality. More information see page 76-77 in the Handbook for Flower Shows, 2017 edition.

Functional Table – A mode of table classes in the NGC Flower Show, planned and set for actual service of food.

Low-Profile Design – a three-dimensional design incorporating three (3) or more design techniques.

Multi-Rhythmic Design – a Creative Design with emphasis on two (2) or more rhythms in the design with one (1) rhythm dominating. 1. Lines create two (2) or more separate and distinct rhythms, each creating a different pattern and movement unlike the other. 2. Lines may go in any direction, be continuous, interrupted and/or crossed.

Parallel Design – a design consisting of three (3) or more groupings of plant material and optional components with a strong parallel placement in a single container and/or base.

The Rhode Island Federation of Garden Clubs extends heartfelt thanks to the Rhode Island Builder's Association for their steadfast support of our Design Specialty Flower Show.

We also express our gratitude to Marshall Building and Remodeling for their generous sponsorship.
