

## **Monday Memo**

July 24, 2023

Hello Everyone,

Time to share an announcement from us about the New England Regional Conference taking place in Plymouth, MA and hosted by Massachusetts to include the other New England Region states. **Please see the flier attached.**

### **Message from the State Awards Committee:**

Has your club completed a project or organized a special event worthy of recognition? Have you done community service work in your town? Did you install a new garden or create a unique publication? If so, there is an opportunity for your club to apply for a New England Garden Club Regional Award.

The New England Regional Garden Clubs hold their annual meeting in October and this year Massachusetts is hosting the event in Plymouth. Clubs may apply for projects taking place between June 1, 2022 to May 31, 2023.

Descriptions of the awards and scoring criteria are attached. These are independent from the GCFM Awards presented on June 1. If you previously

applied for a state award you may resubmit your project with an updated narrative, or you may send in a new application not previously submitted.

All applications must be submitted electronically to the GCFM Awards Chair. Do not send your form to the New England Regional Awards Chair. The NEGC uses the same format as the State Awards Application. Additional details and the application form is forthcoming. The deadline to submit applications to the State Award Chair is August 28.

If you have any questions, please contact the GCFM State Awards Chair Lisa Murray at [LMurray17@gmail.com](mailto:LMurray17@gmail.com) or call 978-302-1063.

**Please see attached document.**

Enjoy each day.
